#### **About Nova Leap**

The Home Care Providers industry is becoming one of the fastest growing healthcare industries in Canada and the United States. Home care saves patients billions of dollars every year by treating them in their own homes instead of in hospitals. An aging population, the prevalence of chronic disease, growing physician acceptance of home care, medical advancements and a movement toward cost-efficient treatment options from public and private payers have all fostered industry growth. Nova Leap is focused on a highly fragmented market of small privately-held companies providing patients one on one care in their homes. Nova Leap's post-acquisition organic growth strategy is to increase annual revenue per location through a
